

The Healthy Ireland Survey 2022\* indicated that 24% of eligible respondents had experienced at least one of the four cost challenges measured around period products:

10% had struggled to afford period products

14% had to improvise with materials not intended for use during their period

8% had asked to borrow products they couldn't afford

10% had changed to less suitable products due to cost

\*Healthy Ireland Survey 2022 Summary Report available at gov.ie

Free Period Products are provided, supported by Department of Health, to help mitigate against known product availability challenges that exist for some members of our community.
